### Projects

#### RSS Feed Website

A dynamic RSS feed reader that fetches news from XML files and presents them in grid, card, accordion, and carousel views using HTML, CSS, and JavaScript.

#### Miles Per Gallon Converter

A simple MPG converter that allows users to convert fuel efficiency between miles per gallon (MPG) and liters per 100 kilometers (L/100km) using an interactive interface with HTML, CSS, Bootstrap, and JavaScript.

#### Checkout Form

A responsive checkout form with input validation, real-time error handling, and seamless user experience for entering shipping and payment details, built with HTML, CSS, Bootstrap, and JavaScript.
